

# Signs of Fall

1. What signs do you see that winter is approaching?
  
2. How many different leaf colors can you find?
  
3. Find each of the following trees. Make a leaf rubbing from each, using a crayon that most closely matches the leaf color.
  - a. The tree with the brightest yellow leaves.
  - b. The tree with the deepest red leaves.
  - c. The tree with the darkest green leaves.
  
4. How do leaves change after they fall?
  
5. Find an evergreen tree with a needle-like leaf and make a leaf rubbing from it.
  
6. From where you are standing, count or tally all the trees you see that are deciduous and that are evergreen.
