Signs of Fall

- What signs do you see that winter is approaching?
- **2.** How many different leaf colors can you find?
- 3.
 - Find each of the following trees. Make a leaf rubbing from each, using a crayon that most closely matches the leaf color.
 - а.
 - The tree with the brightest yellow leaves.
 - b.
- The tree with the deepest red leaves.
- **C.** The tree with the darkest green leaves.
- 4.
- How do leaves change after they fall?
- 5.
- Find an evergreen tree with a needle-like leaf and make a leaf rubbing from it.
- 6. From where you are standing, count or tally all the trees you see that are deciduous and that are evergreen.
