Introduction:
Correlation of PLT's GreenSchools! Investigations to the National Curriculum Standards for Social Studies

The purpose of this document is to provide educators with an easy reference guide as to how Project Learning Tree’s GreenSchools! Investigations for grades K through 12 correlate to the National Curriculum Standards for Social Studies.

The revised 2010 publication of the National Curriculum Standards for Social Studies published by the National Council for Social Studies was used for this correlation. Each GreenSchools! Investigation was correlated to the Knowledge standards for each of the ten social studies themes.

The correlation document is divided into three parts:
   o Table 1 provides the correlation for Early Grades, pre-K - 4;
   o Table 2 provides the correlation for Middle Grades, 5 - 8; and
   o Table 3 provides the correlation for High School, grades 9 - 12.

We hope you find this document useful and we welcome any comments you may have.

Sincerely,
Project Learning Tree Staff
