

What Are the Consequences?

Answer the following questions about your group's case. Keep in mind that there is no one "correct" answer for many of the questions,

| | |
|--|--|
| 1. Which case did you analyze? | |
| 2. How is the forest used in this case? | |
| 3. Why do people use it this way? | |
| 4. Who benefits from this use? For each group of beneficiaries, how essential is this use? (1 = not very essential, 5 = crucial) | |
| 5. Rate how much this use affects the forest itself. (1 = low effect, 5 = high effect) | |
| 6. Would you say the duration of the effect is short term (less than one year), long term (greater than 100 years), or somewhere in between? | |
| 7. What would the effects be if more people used the forest in this way? | |
| 8. What might reduce the effect of this use? | |
| 9. Is this use sustainable? If not, what element of sustainability is missing? | |
