

Case Study: Local Land Use Issue

Student Group Members:

1. What is the land use issue in your community that your group selected?
2. What area is affected by this issue (for example, block, neighborhood, city, county, watershed)?
3. Who are the “players,” and what are their positions?
4. What are the values and beliefs of the players?
5. Who or what else might be affected by this issue?
6. What local laws are connected to this issue?
7. What are the possible solutions?
8. What solution do you recommend?
9. If your recommended solution were used, what possible effects would it have on the following:
 - Environment?
 - Local citizens?
 - Economy?
 - Community character?
10. According to the effects above, what should be done to resolve the issue? Why?
11. How does this issue affect your sense of place?
