

Soil Investigation

For Part A

1. Describe where your soil is from.
 - Draw a picture that shows where you got it.
 - What was growing there?
 - What else did you notice?

2. Describe the soil.
 - What color is it?
 - How does it smell?
 - How does it feel?
 - What do the largest soil particles look like? The smallest?

3. Describe your soil shake.
 - Before the shake, what do you think will happen?
 - After the shake, draw what you see.
