Use the EJSCREEN tool or other online tools to collect data for your assigned county. Create a visual display with the following information.

**To find information about your assigned county with EJSCREEN:**
- Under “Select Location” enter in the name of the county and state (such as Washington County, OR) and hit “Go.”
- A pop-up window titled “Chart or Report” will appear.
- Select “CDC Report” to find population data, environmental indicators, and health statistics for your county.
- Go to “Add Maps” and then “EJSCREEN Maps” to add and explore other variables with the mapping tool.

1. **County:**

2. Average Income:

3. Percentage of residents living below the poverty line:

4. Races of residents (by percentage):

5. Concentration of particulate matter in the air:

6. Percentage of residents living within one-half mile of a park:

7. Percentage of residents living close to a major highway:

8. Another variable of your choice, including its description and value:

9. Did you find an environmental justice issue in this county? Explain your answer using the evidence you found.

10. If you did not find an environmental justice issue, what additional data would you recommend collecting to be sure there isn’t an issue?

**CAREER CORNER**

**COMMUNITY ENGAGEMENT MANAGERS** build relationships with groups of people to identify and address issues affecting their well-being. The work often involves partnerships that help mobilize resources and drive changes in policies, programs, and practices.
