

NAME \_\_\_\_\_ DATE \_\_\_\_\_

Look for signs of plants and animals living in and around your tree. Mark each sign you find with an "X." Then, answer the questions.

Location of Tree: \_\_\_\_\_ Type of Tree: \_\_\_\_\_

**Chewed Leaf**

**Bite Marks on Nut or Fruit**

**Hole in Trunk or Base of Tree**

**Animal on Tree**

**Other Sign of Animal or Plant Living in Tree:**

---

---

**Nest**

**Plant Growing on Tree**

**Insect Eggs**

**Bird Flying Around Tree**

I LOVE MY  
**GREEN JOB**

## CAREER CORNER

**WILDLIFE BIOLOGISTS** (buy-ALL-uh-jists) study wild animals and their habitats to find out what they need to live. They may watch animals in trees, forests, and other habitats.
