

NAME _____ DATE _____

ORGANISM: _____

Research to find the following information about your organism.

1. Where in the forest does it live?
2. What does it eat?
3. What eats it?
4. What other organisms live in the forest with it?
5. In what ways does it depend on other organisms?
6. How does it influence its environment?

CAREER CORNER

WILDLIFE BIOLOGISTS (buy-ALL-uh-jists) study wildlife and their habitats to understand what these animals need to thrive. They look at the relationships of birds, mammals, fish, reptiles, or amphibians to the forest and to each other.

I LOVE MY
GREEN JOB!
